

Cat[®] General Duty Undercarriage

For Large Track-Type Tractors

The Right Balance of Performance and Value

Cat[®] General Duty Undercarriage was designed specifically for your Cat D9 machines—to help you get just the right balance of performance and value.

Designed for use in low- to moderate-impact applications where the value of Cat Heavy Duty Undercarriage is not fully needed, Cat General Duty rounds out the Cat Undercarriage options for large machines.

Note: Cat General Duty Undercarriage is not designed for forestry or waste applications.

BUILT FOR IT.™

Cat® General Duty Undercarriage

Matching Undercarriage to Application Delivers the Most Value

Cat General Duty is built to Caterpillar specifications for fit and performance on your Cat machines. Application and hour utilization are what determine which Cat Undercarriage best matches your work and your budget. This application listed below can help you identify where Cat General Duty vs. Heavy Duty will best meet your needs.

General Duty

Heavy Duty

Low Impact

Moderate Impact

High Impact

A completely penetrable surface which provides full shoe plate support with low exposure to any height bumps.

A partially penetrable surface with constant exposure to smaller (1"-5") bumps (rocks).

A non-penetrable hard surface with constant exposure to 6" or higher bumps (rocks).

Work with Your Cat Dealer for Longer Undercarriage Life

Your Cat dealer has the experience and expertise to help you extend undercarriage life, manage operating cost and maximize uptime.

- With Custom Track Service (CTS) your Cat dealer inspects, measures and reports undercarriage wear, so you can make informed decisions about service and maintenance.
- Your dealer has excellent Cat General Duty parts availability for fast turnaround time.
- While Cat General Duty is built to different specifications than Heavy Duty, its design makes Cat General Duty and Heavy Duty components interchangeable, eliminating any need for retrofitting and keeping downtime to a minimum.
- Cat Undercarriage Assurance—our four-year/3,000-hour Undercarriage Assurance Program covers Cat General Duty. Ask your Cat dealer for details.

Cat General Duty Track Shoe Options

In addition to undercarriage components, track shoe selection can impact traction and flotation as well as overall undercarriage wear life. For the conditions in which D9 Cat General Duty Undercarriage will typically be operating, extreme service shoes offer optimal performance and wear life. Cat General Duty track groups will be available in the following configurations:

D9N/R/T
24" Extreme Service
27" Extreme Service

See your Cat dealer for more details.

Cat Heavy Duty shoes can be installed on Cat General Duty link assemblies to meet various customer requirements.
