

ECOSTACK

material handling

Aggregate from a crusher. Compost from a screen. Wood from a shredder. Wherever material needs to be moved or stockpiled, EcoStack conveyors are built for the task. Fit more inventory in less space with efficient EcoStack material handling.

SAVE LABOR. SAVE FUEL. SAVE WEAR. SAVE TIME.

Stack higher. Not wider.

Conveyors are the lifeblood of any processing operation. Adequate conveyor capacity maintains peak throughput, provides essential flexibility and allows maximum inventory storage in a constrained amount of space. EcoStack conveyors are engineered to provide the most efficient performance for any material handling application.

Stockpile higher and faster with widths to 48" and lengths to 150'. Stack non-stop with powerful radial action. Work worry-free with a hydraulic wrap drive and eliminate unnecessary expenses with ultra-durable construction. Reduce material handling, lower labor costs and save wear and tear on your loaders with EcoStack.

Wheeled stacking conveyors—a mobile solution.

For operations with forgiving terrain, wheeled conveyors are a convenient option. Like all EcoStack conveyors, they are extremely easy to set up with their hydraulic folding. Features unique to wheeled trackers include a swing beam radial axle and a road legal package that includes lights, fenders, LED flashers, a King-Pin coupling and air brakes. But just because they're more mobile doesn't mean they're not tough—these machines boast a powerful (and efficient) drive system that utilizes 270 degrees of the drive pulley for maximum torque.

Tracked stacking conveyors—for challenging terrain.

EcoStack tracked conveyors tackle even the most challenging terrain with their heavy-duty Strickland tracks. Also easy to set up with their hydraulic folding, tracked conveyors offer dust covers, a cross brand magnet, hardox abrasion resistant plates in hopper and a chevron belt. Moving the machine is simple—you can either use the standard dog lead remote or upgrade to the wireless remote. EcoStack tracked conveyors are the machines you need to add versatility to your worksite regardless of the conditions.

INNOVATIVE FEATURES ON ECOSTACK CONVEYORS

torque on the wheeled conveyors

Easily transport any conveyor on the stree with an optional road-legal package

Heavy-duty tracks allow the conveyors to maneuver over rough and muddy terrain.

long-lasting performance.

Satisfy any material handling need with models ranging in length from 50' to as long as 150'

need, custom conveyors and builds are availab

ECOSTACK MODELS AND SPECS

WHEELED STACKING CONVEYORS

	5032W	6032W	8036W	10036W	12536W
	500211	000211	000011	1000011	1250011
OPERATING LENGTH	50′	60′	80′	100′	125′
BELT WIDTH	32"	32"	36"	36"	36"
HOPPER VOLUME	N/A	N/A	2.5 yd ³	2.5 yd³	2.5 yd³
ENGINE POWER	optional	optional	37hp or 50hp	50hp	74hp
STOCKPILE CONE	390 yd³	548 yd³	1,701 yd³	3,395 yd³	4,807 yd³
STOCKPILE AT 180°	2,976 yd³	4,215 yd³	13,076 yd³	26,115 yd³	36,976 yd ³

TRACKED STACKING CONVEYORS

	6536K	8036K	8048K	10048K
OPERATING LENGTH	65′	80′	80′	100′
BELT WIDTH	36"	36"	48"	48"
HOPPER VOLUME	N/A	N/A	up to 6.2 yd³	up to 6.2 yd ³
ENGINE POWER	50hp	74hp	74hp	100hp
STOCKPILE CONE	1,100 yd³	1,889 yd³	1,983 yd³	3,130 yd ³
TRACK DIMENSIONS	8′ 3″ x 16″	10′ x 16″	10' x 16"	13′ 2″ x 16″

DIRECT FEED STACKING CONVEYORS

	7048	8048	9036W
OPERATING LENGTH	70′	80′	90′
BELT WIDTH	48"	48"	36"
HOPPER VOLUME	13 yd³	13 yd ³	7 yd ³
ENGINE POWER	100hp	130hp	100hp
STOCKPILE CONE	1,790 yd³	1,860 yd³	1,836 yd³
TRACK DIMENSIONS	10′ x 16″	11′ 6″ x 16″	N/A – wheeled
